PROFESSIONAL SUMMARY

B.Tech Artificial Intelligence and Data Science student (GGSIPU, Batch 2027) with strong interests in AI, machine learning, and cloud technologies. Passionate about solving real-world problems through hands-on projects and continuous learning. Experienced in working with Node.js, React, and Python, with exposure to cloud services via Google Cloud Study Jam. Active contributor to institutional innovation and leadership through NCC and IIC.

Seeking internship opportunities to apply my skills in practical AI and web development.

EDUCATION

BTECH IN ARTIFICIAL INTELLIGENCE AND DATA SCIENCE 2023–2027

UNIVERSITY SCHOOL OF AUTOMATION AND ROBOTICS

SKILLS

- **Programming:** Python, C++
- **Web Dev:** React, JavaScript, Node.js
- **AI/ML:** Machine Learning (model training)

WORKING EXPERIENCE

- Developed a **Crime Prediction System** using machine learning algorithms (Decision Tree, Logistic Regression) to predict crime types based on location and time, integrated with a Node.js backend for real-time prediction. [GITHUB](#)
- Created a **Hospital Management System** Frontend using React.js, implementing features like patient records, appointment scheduling, and user-friendly UI components. [GITHUB](#)
- Participated in **Google Cloud Study Jam**, gaining foundational experience with cloud services.
- Continuously building skills in AI, web development, and cloud by working on real-world inspired projects.
- Active member of **Institution's Innovation Council (IIC)** and **NCC**, developing leadership and problem-solving capabilities through workshops and national-level training.
